

ACTIVITIES FOR GRADES K-5

-  Invite your child to make a poster for their house reminding them of how they can choose to be responsible at home (e.g., set the dinner table, brush teeth, help with a pet, etc.)
-  Have your child brainstorm ways that they can be helpful at home and create a responsibility chart to keep track of what they do.
-  Have a conversation with your child about responsibility and discuss all the ways that they can be responsible and helpful at home. Together, pick something new at home to take responsibility for (e.g., watering a plant, taking out the trash, putting away toys).
-  Ask your child to create “Responsibility Certificates” to hand out to members of their family that they want to recognize for being helpful at home. Invite your child to create a responsibility celebration at home and present each family member with the certificates.
-  Share a story from your first job with your child and discuss how you showed responsibility. Next, have them draw their dream first job and make a list of the different things they would need to do to show responsibility.
-  Invite your child to reflect on how they can be more responsible at home. Have them create a list of their ideas and share them with a family member.

We'd love to see your creations. Please share your stories, artwork, and photos with us on social media
