

ACTIVITIES FOR GRADES K-5

-  Have a conversation with your child about teamwork. Share examples with your child about how teamwork affects their work life.
-  Have a conversation with your child about ways that they can work together as a team at home to complete household chores.
-  Invite your child to pick a favorite game to play that requires collaboration and helps them practice teamwork.
-  Ask your child to brainstorm a list of activities that involve teamwork. Together, come up with as many as possible in three minutes and see who comes up with the most.
-  Work with your child to solve a problem at home using teamwork. For example: start recycling, eat healthier or show more kindness to family members. Together, make a list of materials needed and a list of different tasks for team members to complete.
-  Have your child write a short story about an experience they had working on a team. Ask them to respond to the questions: What worked well? What was challenging? What would you do differently next time?

We'd love to see your creations. Please share your stories, artwork, and photos with us on social media
